

## RING SIZE GUIDE

**This guide is intended to help you find your ring size. Primarily we would recommend you to visit a local jewellery store or gold/silver smith to get your finger measured or to try out different rings to find what size fits you best. If used carefully, this guide will give you a good indication of what size will work for you.**

### STEP 1: CONFIRM PRINTED PAPER SIZE

1. Print this sheet. Make sure the "scale to fit" option is unchecked in the print settings dialogue.
2. Measure the line below with a ruler. If the line is exactly 5 cm long then you have printed it out correctly.

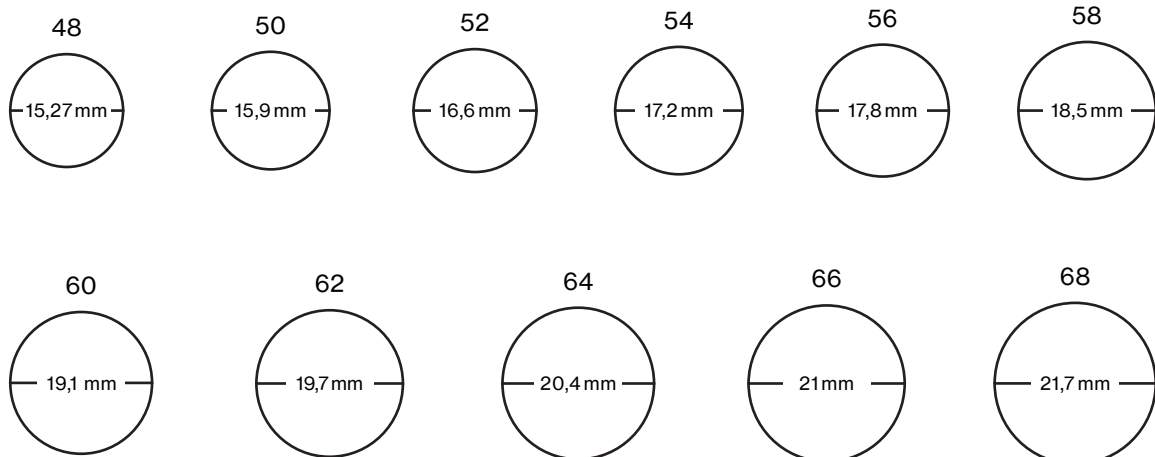

### STEP 2: MEASURE AN EXISTING RING

Match the existing ring that fits your desired finger to the sizing circles below.

When you have found the right size, you should be able to see the entire black outline of the sizing circle, and no white space between the circle on the paper and the inside of your ring.

Tip\* If you are in between two sizes we recommend sizing up.
